We seek to insure high reliability to our customers and build our commercial relation on loyalty. We also believe that it's essential for a company to be prepared for and follow all market necessities, obligations, regulations, and standards and is certified by legitimate international certification bodies.

WE TAKE CARE TO REGISTER ALL OUR BRANDS WITH THE RIGHT GOVERNMENTAL AUTHORITIES

PRODUCTION LINES

Since the beginning of our company, we have desired to become a major manufacturer in this segment. To achieve that goal, we made sure to create and build our company on strong foundational values and principles:

Quality;
Customer focus;
Continuous improvement;

We work with the best hard wheat grain supplier and as one of our major market differentiators: we manufacture our own wheat flour. This fact allows us to select the greatest grain, mill it into wheat flour following all the sanitary rules demanded by the inspection agencies and by the Halal Certificate. Using the same quality wheat flour to produce our tasty pasta, we shape this mix of flour and water into spaghetti strands of various thicknesses and numerous pasta shapes.
