LET'S
COMMUNICATE

1. Contact us via our various sources of communication to make your order. During our negotiation, we will talk about: –The product you require (wheat or pasta, its type and brand.) –After confirming your choice we will negotiate the price.

2. We will collect all the required information and send you an initial invoice. You can check the details and when they're to your liking, you will need to make the initial money transfer from your bank to our account.

3. The time to complete manufacturing of your order will depend upon the amount of product you require and our manufacturing capacity, which is: For Pasta is 200 MT/day For Wheat Flour is 1,500 MT/day.

4. After manufacturing is complete, we will send shipping containers to Egyptian port. Also, we'll send you a copy of the documents so you can confirm the rest of the shipping details and make rest of the money transfer to our bank account. After payment we will ship original documents to your address.

5. Delivery times depend upon distance from destination port. You can collect your shipment from your port using these documents. We'll call you for after sales survey of our products to ensure quality standards and expectations.
